### **Further Information about App Content**

#### Feature Comparison of Different University Apps

# Creating a Comprehensive Campus App in Rokwire

**Illinois App Homescreen:** user interface with tiles.

\* each tile is a specific campus function or activity (e.g. dining).

\* consolidates several different apps or websites into a single user interface.

#### Safer Apps:

- \* a response to the COIVD19 pandemic. Built on Rokwire.
- \* Safer Illinois was the first app developed on the Rokwire Platform.
- \* Safer Community was adapted for community testing and other campuses (Vanderbilt).

How it works

You can use this app to:

your status.

positive.

Self-assess your COVID-19

from your health provider.

proximity to people who test

Next

## How can you contribute to open-source?

#### **Get Started with Rokwire**

Check out our **Onboarding Guide** (https://tinyurl.com/RokwireC-Onboarding) and subscribe to our bi-monthly **Newsletter** (https://rokwirecommunity.substack.com/).

#### Interested in the Source Code?

Fork or clone our **Building Blocks API** from Github: https://github.com/rokwire/rokwirebuilding-blocks-api

#### Learn More About Rokwire/Open-source Definitions

Need more definition of key terms and concepts? Visit our **Community Wiki** (https://github. com/rokwire/rokwire-community/wiki).

#### Want to Contribute in Other Ways?

Become a building contributor! Go beyond code contributions and contribute in a number of ways. Contact the Open-source Community Manager (balicea@illinois.edu) for information.

### Summary

Largest category of campus apps is comprehensive apps

Out of 18 features: Maps, Events, Bus & Course Schedules, Dinning and News are the most popular

Amongst the 60 university's campus apps: ASU had the highest number of features

 $\angle$  Amongst third party app developer companies: Guidebook and Modo Labs are most popular

Rokwire is an example of an open source comprehensive platform
